

2014 Annual Report

50 Years of Service to Our Communities

1964-2014

Frank McElwain,
President and Gregory
P. Disy, LCSW, CEO

From the Board President and Chief Executive Officer

AMHC reaches a significant milestone in 2014: 50 years of service to our communities. AMHC was born in 1964 out of the efforts of the then Aroostook County Health Council. Over the past 5 decades, AMHC has grown and developed into an agency that offers a comprehensive continuum of behavioral health and social services in our home county, Aroostook, and in Hancock and Washington Counties. In the words of AMHC's first Executive Director, Bob Vickers:

"Prior to the inception of the Aroostook Mental Health Center, no mental health services were available in all of Aroostook County. People in need of services either went without or went to Bangor. It was out of this desperate need that the Aroostook Mental Health Center was born. It was a commitment to providing services to people in need that was a primary tenet in the development of the center. Another tenet was the provision of a broad range of services to meet the needs of many different populations: the chronically mentally ill, the acutely mentally ill, families and children with mental health problems, the alcoholics, the families of alcoholics, and education regarding mental health to the general population."

In this year's report, we offer a 50-year timeline documenting AMHC's historically significant activities and initiatives. What we affirmed, in reflection, is that while AMHC has adapted in scope and size to meet society's needs as the world has changed, it is fair to say that we have never strayed from our founding purpose, "to provide programs and services for improving mental health and welfare in Aroostook County."

Our greatest reward from the work that we do is helping others and to be recognized as a trusted service provider made up of caring individuals working together to make a difference in the lives of others. The most reliable, consistent factor contributing to AMHC's success over these many years is the compassion and commitment to service exhibited by staff, leadership, board members and community members to meet the needs of children, youth, adults and families in

need of service. Because of all of you, AMHC has successfully worked through countless healthcare policy, practice and funding changes in 50 years and has consistently come through it stronger and more committed than ever to achieving our founding purpose.

We have grown from a staff of 4 in 1964 to more than 300 in 2014. When we received our first staffing grant in 1970, we served 1,600 individuals with a budget of \$600,000. In 1989 at our 25 year mark, we provided almost 3,000 with treatment (and more than 5,000 with educational services) on a budget of \$4.3 million. This past year, we served 7,653 with a \$16 million budget. While the cost of care has certainly risen over the years, so has the quality of care and technological advances that drive that cost of care. Because of the policy, practice and funding changes we embrace to meet customer needs, our level of service to the community is welcomed and met with a high level of satisfaction. AMHC services are given high marks by customers and referral sources alike.

Importantly, it is through the feelings and words of customers, staff and board members that we convey how well we are achieving our founding purpose and providing value to the community. This report offers a glimpse into those feelings through the words of our customers and dedicated staff.

Thank you to everyone who has supported AMHC. We invite you to join us in celebrating 50 years of service to our communities. We remain solidly focused on the future and value your continued support as we embark on the next 50 years.

Sincerely,

Frank McElwain
Board President

Gregory P. Disy, LCSW
Chief Executive Officer

A look back at our HISTORY

• Aroostook Mental Health Services, Inc., AMHC, files charter of incorporation.

• U. S. Congress enacts the Community Mental Health Center Act with funding to develop services.

• Services begin with 27 new staff:

- Inpatient at Fort Fairfield
- Outpatient at Houlton and Fort Kent
- Consultation at Houlton and Fort Kent
- Education, 24-Hour Emergency Services at Fort Fairfield, Madawaska, and Van Buren
- Day Treatment at Fort Fairfield

1964 | 1966 | 1968 | 1970 | 1971 | 1972

• Four part-time AMHC staff are hired.

• AMHC receives NIMH grant to develop a Comprehensive Mental Health Center.

Robert R. Vickers hired as the first Executive Director.

• Speech and Hearing Services developed.

Over the past 5 decades, AMHC has grown and developed into an agency that offers a comprehensive continuum of behavioral health and social services in our home county, Aroostook, and in Hancock and Washington Counties.

Emergency Services earns MHCA national recognition award for achieving the highest level of client satisfaction.

AMHC's Andy Santerre SNO-RUN event celebrates its 10th and final year, raising a total of \$400,000.

In our customers WORDS

Recently we asked our customers to describe how their services at AMHC have helped them recover and live a more rewarding life. Also, in the spirit of reflecting on 50 years of services, we have republished a customer quote from the past. In our customer's words, we offer the following sentiments.

AMHC Customer sentiment, 1992

I had a lot of days that I wouldn't get dressed, ate to soothe the depression. I cried a lot and I had a very hard time dealing with the loss of my grandson. I couldn't speak his name without crying. Coming to AMHC has been a blessing. Theresa has helped me so much. She is so wonderful. She is always there for me. I am feeling so much better. Theresa has gotten me through this. I can actually talk about him although I miss him very much my day to day life has improved and I'm not as angry. Please continue your good work. I wasn't so sure going to AMHC was a good idea. I am so glad I did go. My life is so much better. It's hard to thank folks enough for helping bring happiness back in my life. God Bless.

Betty, Houlton Outpatient

My husband and I separated after 40 years of marriage; then I learned he was dying of colorectal cancer in Stage 4. I was alone and I did not know how to have a budget or do anything on my own. AMHC was helpful with everything and I couldn't have gotten through without you. You helped me to live my mantra, "Be awesome and get stuff done!" I'll always recommend you to everyone.

Linda, Ellsworth Outpatient

Sylvio Dubois

AMHC saved my life. On the 20th of December 1980, I found myself with yet another OUI, the second that year and the fifth one in my life. I had tried to stop, I had been to rehab, I'd tried counseling, and nothing seemed to work. Going against a denial system, I decided to try one more time. Just maybe it would at the least keep me out of jail. I called AMHC as a last resort. The service I received that day and next couple of weeks was phenomenal. I wish I could say what happened in the next 29 days but most details seem to elude me. I do know that somehow my denial was broken and I accepted my addiction and my attitude towards recovery changed. I received individual counseling which got me through the cooking chore and a process called the First Step, I was even encouraged to facilitate the Thursday morning group while staff did case review and even though I told the staff afterwards that I would never sit in that chair again, it was an experience that was so uplifting that I will never forget it. I used AMHC services when going through a divorce. Today I am proud to say that I have nearly Thirty Four years of continued sobriety.

*Sylvio Dubois, former AMHC client and
AMHC Substance Abuse Counselor*

On Saturday, September 27th at approximately 4:30 in the afternoon I received a 911 call from Paulette Garrison with your agency. She was reporting a suicidal male with a loaded gun by his parent's gravestone at a cemetery here in Augusta who was hearing voices telling him to shoot himself. When I was connected to Paulette, she advised me that her fellow employee, an man who's name I unfortunately did not obtain, was on the line with the suicidal male and had already convinced him to unload the gun and place it on the gravestone. Paulette was able to give me the name of the cemetery and relay my questions and instructions to her coworker, Jonathan McQuarrie, quickly, effectively and without question or hesitation to help locate this male and direct my police officers to him. We were able to get the male in question to exit the van and he was instructed to move slowly to the rear of the van with his hands in the air so my officers could approach him safely and calmly assess his situation. This led to the male getting the crisis intervention help he needed and my officers not facing any danger in a tense and high risk situation.

Due to the calm and compassionate work of Paulette and Jonathan, this potentially deadly situation had the absolute best outcome for all parties involved. Working in Augusta we deal with numerous mental health agencies on a daily basis and I can safely say that the Aroostook Mental Health Center represented itself as the best I have communicated with and what others should strive for. All too often in this profession we are only the recipients of negative feedback when things go or turn out badly, so I wanted to let Paulette and Jonathan know how truly appreciative we are here at the Augusta Police Department of their fantastic work. Several officers are going home safely to their families tonight, a person is crisis was kept safe, and we have your staff to thank.

*Aaron Farrell, Lead Dispatcher
Augusta Police Department*

Left to right: Gayla Dwyer, AMHC Vocational Services, Mark King, and Shelby Cousins, AMHC Vocational Services.

I have been working with a counselor at AMHC since 2010 for help with my severe anxiety and Tourette's Syndrome. AMHC helped me find a job and housing for myself and my wife. I have a full time temp job that was made a permanent position and I have been named the employee of the month at Lowes. I was able to find my own apartment without financial assistance or counselor support.

Mark King, Caribou Outpatient and Vocational Services

AMHC made my life better. Before I came to AMHC (22 years ago), my life was horrible and disorganized. I was almost going to jail. I was using alcohol and drugs. I was making bad choices on friends. AMHC helped me get back on my feet and (offered) me a good support system to keep me clean and sober. They treated me the way I wanted to be treated. They treated me with respect. They kept me sober and clean (and) helped me get back on my meds and providing me with structure that I need. The staff is great. The case managers are awesome to work with. I recommend to anybody who needs or is thinking to get help. AMHC is the best way to go.

Client, Madawaska Group Home and St. John Valley Outpatient Services

Every year, AMHC conducts a Customer Satisfaction Survey in all service locations and these are some of the comments we received:

"AMHC has been a solid positive part of my life and recovery." Ellsworth Outpatient

"RTF has helped me deal with all my issues. I am forever grateful to this treatment center." Residential Treatment Facility, Limestone

"Very pleased with staff's willingness and going out of the way." St. John Valley Outpatient

"The CCSU really helped me with my problems." Children's Crisis Stabilization Unit, Fort Fairfield

"I would not have the hope I have today without being able to have this time to get myself together!" Adult Crisis Stabilization Unit, Presque Isle

Staff and Board SENTIMENTS

Left to right: Tia Shaw, Jean Wight, Kelly Scott, Renee Bell, Melanie Mace, Jemelie Durepo

Jean Wight, Therapist-Consultant

Working at AMHC allows me to have the opportunity and the privilege of bringing comfort to those who are in pain. Sometimes, it feels like it is a small comfort and other times it feels greater; but always it feels like hope.

Jemelie Durepo, Quality Assurance Manager

Each day I get the opportunity to see staff engaging our clients in achieving their goals. Our clients are working towards making their lives as healthy as possible. I am grateful that I get to be even a small part of the work AMHC does.

Renee Bell, Community Support Worker

In some cases, there is no one else.

They are alone. Every door is closed.

We offer an ear, a smile or a minute.

Letting in a small flicker of light,

So maybe one day, it can illuminate; a once dark space.

Tia Shaw, Community Support Worker

I believe in empowering people to the very best of our abilities so that they can succeed in their everyday lives.

Melanie Mace, Psychologist

I appreciate the comprehensive services AMHC makes available to individuals in the community and the possibilities for continuity of care across the life span. It reminds me of an older family practitioner model wherein your health needs were familiar to one person. While that is no longer possible for an individual provider, I appreciate that our client's health needs can often be met within one organization.

Kelly Scott, Substance Abuse Counselor

I choose to work here at AMHC as I believe in our mission to be able to provide integrated services and I support our vision. By supporting our clients and seeing the changes they make in their everyday lives we are able to see an improvement in the overall quality of their lives and the community they live in.

Lori Carr, Calais Children's Residential Program

I see my purpose being fulfilled one client at a time. I have chosen to work in the Mental Health Field as a Residential Counselor. I may never know or understand the impact these individuals have made on my life, but I've learned I have the opportunity to affect people's lives for the better and can make an extraordinary difference. In helping others, we help ourselves, for what we give out completes the circle and comes back to us.

Gail Dodd, Substance Abuse Counselor

It is an honor and privilege to work for AMHC at the RTF in assisting individuals with achieving a higher quality of life. I strongly believe in all services provided by AMHC, but am especially invested in services provided at the Farm. Working at the Farm has changed and enriched my life in more ways than I could possibly describe. It started with opportunity, offered chances to grow and change, and ultimately became a purpose. I have been privileged to work with many individuals over the past 23 years, both clients and co-workers, and each and every one of them has blessed my life.

Sandra Saul, Cook, Calais Children's Residential Program

I enjoy my job very much I look forward to getting up & going to work every day.

Lisa Tirrell, Behavioral Health Professional, Calais Day Treatment Program

I love working in a field where I feel that I help others to achieve goals. I honestly have great co-workers and feel as if our team is very strong!

Pam Wyman, Systems Analyst-Developer

The best part of my job is the people that I work with.

Sylvio Dubois, Substance Abuse Counselor

This year I celebrate thirty years with AMHC and I am forever grateful for the support the agency provides its staff. I have been touched by so many wonderful people I could not begin to list them all. I must however say thank you to Mr. Greg Disy for giving me a chance some thirty years ago.

Clement Deveau, Program Director, Behavioral Health

I am continually impressed with staff's commitment to serve the needs of the community, regardless of how challenging the task, staff have always found a way to remove barriers and find creative solutions to some of the most difficult challenges.

Richard Marston, Board Member

My connection with AMHC comes from the development of the Fraser Papers Employee Assistance Program working with Bob Vickers and Wes Davidson. I continue to be amazed by the staff and management of AMHC as they navigate the challenges of providing such an array of services to the community with ever shrinking resources.
