## **CHILDREN'S** *Behavioral Health Home*

*A MaineCare funded service*

**A holistic service designed to help children manage their behavioral and emotional needs.**

*AMHC is a MaineCare Section 92 Behavioral Health Home provider. The goal of this service is to help those who are eligible to manage mental illness and physical health issues. If your child has MaineCare coverage, a mental illness, and a limitation in adaptive behavior or functioning, they may be eligible for this service.*

## AMHC Children's Behavioral Health Home

AMHC Children's Behavioral Health Home (CBHH) is an outpatient service for children with mental illness and a limitation in adaptive behavior or functioning. The service is intended to help your child:

- Be healthier.
- Get the services and supports needed for recovery from mental and physical health issues.
- Seek health care services from a primary care provider as needed.

CBHH is not a place to go to call "home". Rather, the service is intended to help children and families who meet the criteria to live a happier and more productive life. If your child currently receives Section 13 MaineCare targeted case management services, or has in the past, CBHH is MaineCare's alternative to traditional case management. The program offers:

- A team approach with a health care coordinator, a nurse, a clinical team leader, and a family support specialist.
- Integrated care to help your child reach recovery and physical health goals.
- A partnership between your child's behavioral health home team and primary care provider, working together to better coordinate and provide integrated care.
- Family supports and education so you can get information and support when you need it.

The CBHH team supports your child and you by assisting you:

- To work better with your child's doctor to understand their physical health situation and prescribed care.
- With referrals to needed social services and supports.
- To arrange for needed services if your child is transitioning home from the hospital or residential service.

### **If my child joins this program, will they lose other mental health services?**

If you choose to enroll, your child will receive case management from the Behavioral Health Home team. Other services, like psychiatric care and therapy services, do not need to change.

### **How do I sign my child up?**

Call AMHC's Call Center at **1-800-244-6431**. A representative will help you identify if your child is MaineCare eligible and schedule an initial appointment to determine if CBHH is right for them.
