

CENTER FOR INTEGRATED NEURO-REHAB

Brain Injury Day Treatment Program

AMHC

www.amhc.org

Fully accredited by CARF, the Commission
on Accreditation of Rehabilitation Facilities

Caribou Office

(207) 498-3820

Specializing in the rehabilitation of brain injury survivors, the Center for Integrated Neuro-Rehab is an outpatient program designed to address deficits that may impede a brain injury survivor's maximum recovery in the areas of intellectual, emotional, and social functioning.

AVAILABLE SERVICES

- Individual (1:1) treatment
- Activities specific to a client's needs
- Group problem-solving
- Stress management training and practice
- Pragmatic/social skills retraining
- Life management skills retraining
- Supervised community outings for clients
- Transportation services
- Referrals for behavioral health and physical, occupational, and speech therapy if necessary

ADMISSION CRITERIA

- CINR accepts clients 18 years of age and older.
- MaineCare clients accepted; please contact us to discuss other forms of insurance coverage.
- Client must have a documented brain injury secondary to trauma, stroke, or disease.
- Client should be independent with transfers.
- It is recommended that the client be three (3) months post injury and have previously received some type of rehabilitative therapy.
- CINR is able to address mild to moderate levels of anger, anxiety, and depression often present with brain injury; please contact us for more information.
